Attachments: PFC Summary 10-17-16.docx; ATT00001.htm

This will likely be the final version of the brief for Shawn for Monday's meeting. His edition is the first lead by HSCD with significant WPD input.

Karrie and I will be on travel Mon-Thurs next week and will not be at the briefing, but I will try to call in from Milwaukee.

Rick

Subject: Revised PFAS briefing paper

Hi All,

I made a few revisions and cleaned up a bit. I took out all the highlighting; Rick, if you want to highlight particular topics feel free. In the future we can use highlighting to show what's new.

I attached a 'dot' map for the two sites to the paper. This version is about a month old but not much has changed because we had lab issues. I'll make sure we have a current map for the next version of this paper.

If you make changes please forward me the 'final'

Thanks,
Steve
